Faculty of Geodesy and Cartography

in cooperation with
The ASSOCIATION OF POLISH SURVEYORS

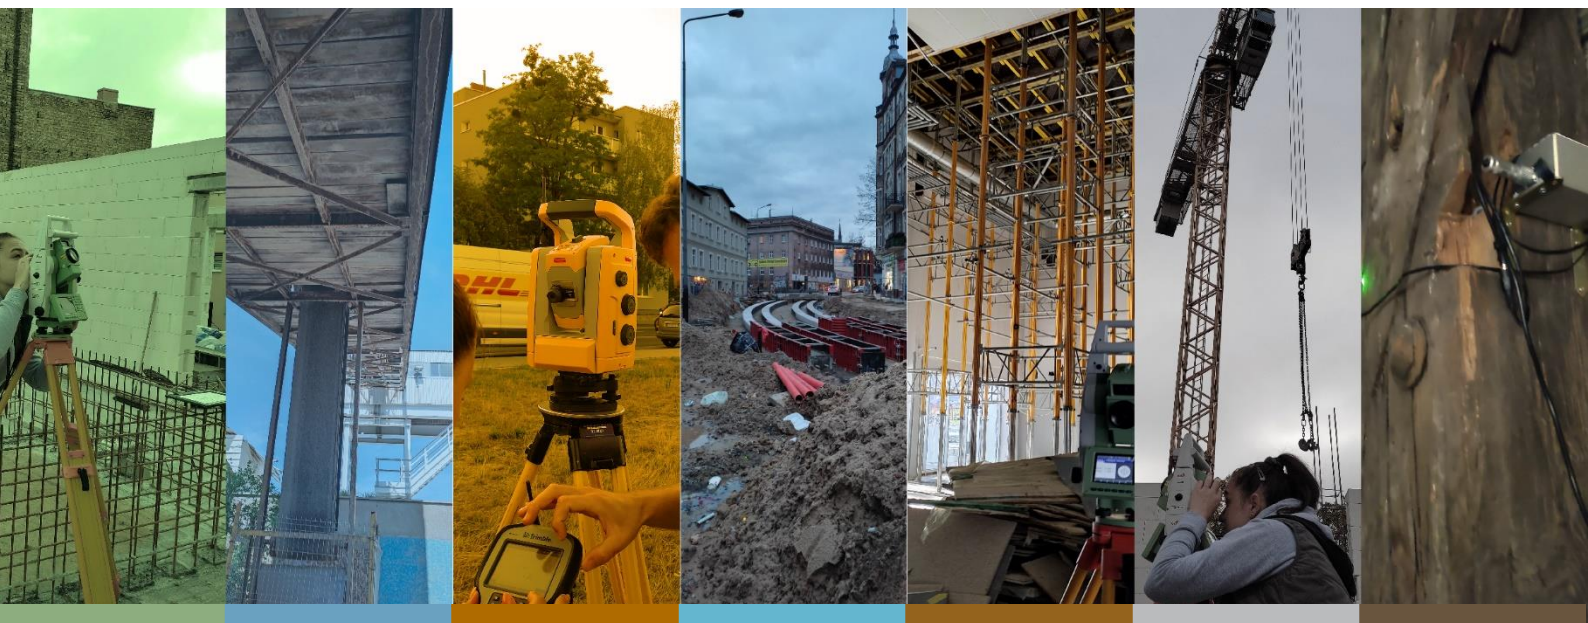

POZNAN UNIVERSITY OF TECHNOLOGY
Faculty of Civil Engineering and Transport

invite you to

XVI International Science and Technology Conference CURRENT PROBLEMS IN ENGINEERING SURVEYING

Engineering geodesy for the development of a sustainable industry

21-22 September 2023

Poznan, Poland

On behalf of the Scientific Committee, we are pleased to invite you to participate in the
XVI International Science and Technology Conference
"CURRENT PROBLEMS OF ENGINEERING SURVEYING"
"Engineering geodesy for the development of a sustainable industry"
which will take place on 21-22.09.2023 in Poznan, Poland.

The conference is focused on interdisciplinary applications of Surveying Engineering and collaboration with related sciences and industries. Regarding that, we propose the following topics:

1. Theoretical aspects of Surveying Engineering
2. Measurement technologies – total stations, GNSS, scanning, photogrammetry, inertial sensors
3. ICT in engineering geodesy
4. Engineering measurements in geotechnics, geodynamics, underground construction and mining
5. Building Information Modelling (BIM) – modelling and information management of engineering objects, creating digital twins
6. Engineering geodesy in structural monitoring and geohazards
7. Applications of Engineering Surveying in risk management

Also, other topics like the applications of topographic surveys in archeology, hydrology, and geotechnics are welcome.

We count on your participation and your active influence on defining the future, hopefully more attractive form of the conference. For this purpose, on our website we will post a survey with several questions and specific suggestions for improvement.

Please disseminate information about the conference among your society.

VENUE

21.09 – 22.09.2023 Best Western Hotel Edison, Baranowo, Poznan, Poland

IMPORTANT DATES

by 31 January 2023 - launch of the Conference website, bulletin no. 1

by 15 April 2023 - registration and submission of abstracts and posters

by 30 April 2023 - preliminary acceptance of papers and posters

by 15 May 2023 - conference fee payment

by 15 August 2023 - poster template uploading

by 15 September 2023 - submitting full content of papers and posters

COSTS

The cost of participation in the conference with accommodation in a 2-person room is **PLN 1800 gross** (~ 400 €).

The cost of participation in the conference with accommodation in a 1-person room is **PLN 1900 gross** (~ 420 €).

The conference fee includes:

- participation,
- accommodation,
- full board,
- conference materials.

It is possible to extend your stay until September 23 and visit Poznan on an organized sightseeing tour- an additional fee of **PLN 500 gross** (~ 120 € including dinner, accommodation, and breakfast).

IMPORTANT: Due to the limited hotel capacity, after filling the limit of people it will no longer be possible to book accommodation (the order of applications decides).

Welcome to Poland!
